

Fall 2011 Freshman Cohort Nonreturning Students: What do we know?

Executive Summary

The following report provides an analysis of 624 first-time full-time degree seeking freshmen in the University of South Alabama (USA) Fall 2011 freshman cohort who did not return to USA in Fall 2012. Of these non-returning students, 238 (38%) transferred to another institution prior to Fall 2012 and 386 (62%) “stopped out” or did not enroll in another college or university.

Results indicated a large majority of transfer students transferred to another institution with one or more of the following characteristics: public, a two year institution, and/or located in Alabama, with the majority (65%) transferring to a community college.

Findings showed a large percentage based differential between students who “stopped out” with less than six hours earned at USA (27%) or students with a USA GPA of 2.0 or lower (23%) and students who transferred and had a similar number of USA earned hours or a similar USA GPA.

The number of USA earned hours (second) and USA GPA (fourth) were the other two of the four characteristics with subgroups that showed the greatest differential between non-returning students who “stopped out” and students who transferred.

41% of non-returning students who “stopped out” had zero to six USA earned hours (147) compared to 14% of non-returning students who transferred (31).

75% of the non-returning students who “stopped out” had a USA GPA of 2.0 or lower (271) compared to 52% of non-returning students who transferred (118).

Three other comparison groups showed percentage based differentials greater than or equal to 10% between students who “stopped out” and students who transferred. These other three comparison groups were: 1) gender, 2) orientation session, and 3) high school GPA.

60% of non-returning students who “stopped out” were male (232) compared to 42% of non-returning students who transferred (100).

22% of non-returning students who “stopped out” attended the August or an Adult or Transfer new student orientation session (83) compared to 8% of non-returning students who transferred (18).
