

Who is a Participant?

A participant is defined as a non-USA employee who is the recipient, not the provider, of a service or training associated with a workshop, conference, seminar, symposium or other short-term instructional or information sharing activity. Participants do not perform work or services for the project or program unless it is for their own benefit. Participants may include students, scholars, and scientists from other institutions, representatives from the private sector, teachers, and state or local government agency personnel.
