Myth Busters: Questions behind Events Management System (EMS)

Implementation Myths

Myth: Space is going to be managed centrally.

Implementation Myths

Myth: There is only one training.

Truth: There is one mandatory administrator training for our primary schedulers. However, we will offer training opportunities for as long as needed.

Implementation Myths

Myth: This software is for academic scheduling.

Truth: Early in the process President Waldrop noted that this effort would not address academic scheduling. Any future academic scheduling changes would be led by Academic Affairs.

Myth: This implementation will fix the scheduling issues on campus.

Truth: This implementation is one of many strategies we believe will help remedy on campus scheduling challenges. It is critical that the entire University community participates in this effort.
