

2:04 PM

Stated they are still in the process of bailing cardboard so no updates just yet on the amount/total.

---

Didn't have any updates for work group, but suggested the addition of a Co-Chair for Academic work group to help identify programs going on with sustainability and getting that information out to students.

Stated that we do not need an approval from Provost to add said Co-Chair within the work groups so it would be no problem for the addition.

---

Is looking to add Earth Day ideas to the web page. He also suggested the President's Office and SGA may want to add Earth Day April 2024 to the web page as well.

stated that they are hoping to do a Campus wide clean up soon.

advised the day after home football games are a good target date for Campus Cleanups.

suggested posting flyers for volunteers to help ( ) with first game clean up.

stated that the committee forward all useful sustainability info to her so she can place it on the Sustainability Web Page.

I Introduced / VP Of the Faculty Senate.

States that there are no current activities. Says the Faculty Senate has completed a survey and will present results at the Senate Plenary meetings the 3<sup>rd</sup> week of September. One of them being ECO Development and how it relates to the world and not just recycling.

also mentioned this Faculty Senate can lead the charge for Curriculum for Sustainability.

Announced on September 15 school is introducing a Minor in Sustainability. Wants to look into marketing for Sustainability classes. Gulf Scholars has funds for curriculum and encourages participation in sustainability modules. He also mentioned at the end of the semester new scholars will

be selected \_\_\_\_\_ stated that he would like to be paired with \_\_\_\_\_ and the Academic Sub Committee.

\_\_\_\_\_ says The Society for Sustainable Engineering is hosting events with guest speakers monthly. He also mentioned 3 student projects that the Sustainable Engineering group worked on such as Micro Plastics and its prevalence in fish, Glass recycling by turning it into artificial sand as well as some projects in Biomedical, Journalism Arts & Humanities fields.
